Assignment 5 Text Exhibits – Josh Radford

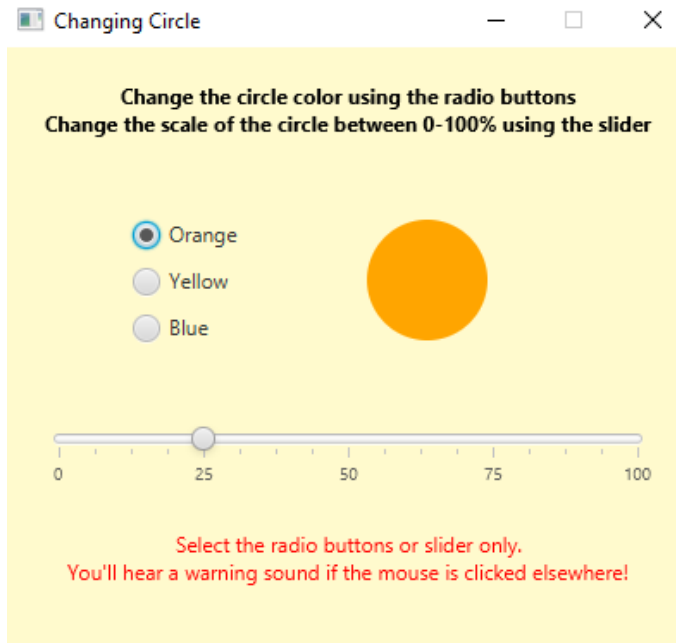

Exhibit 1: When the application is launched, the radio button "orange" has been selected, the displayed circle is orange, the size of the orange is 25% and the knob of the slider is selected at 25 on the scale.

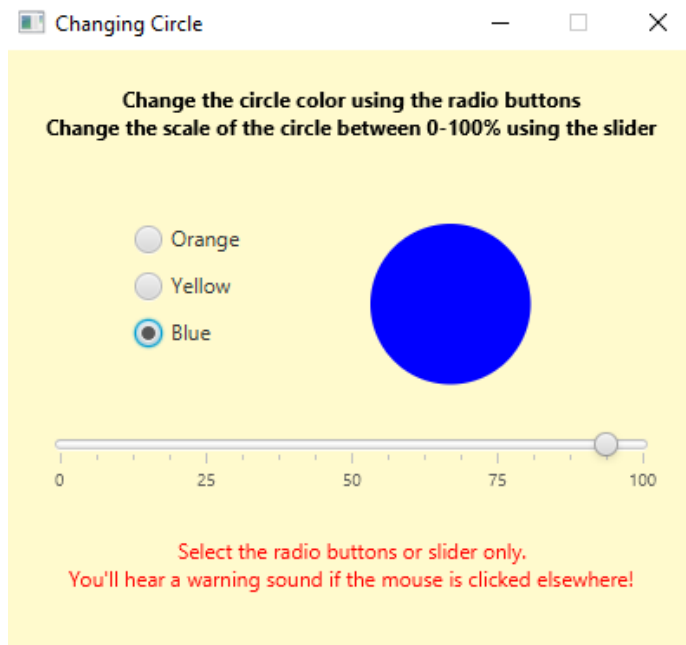

Exhibit 2: The circle color changes immediately upon clicking the radio button. Scales with the slider. Scale of the circle is exact same dimensions as shown in assignment example.
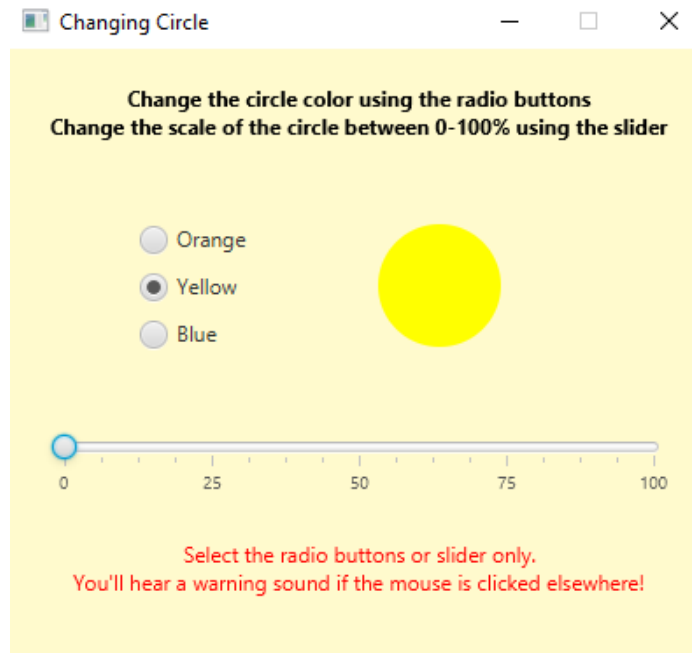

Exhibit 3: Slider value of zero does not eliminate the circle like the default slider would do. Custom scale set to work with the slider.

Exhibit 4 (NOT PICTURED): Window is NOT resizable to keep GUI layout displaying as intended.

Exhibit 5 (NOT PICTURED): A sound is immediately played when a user clicks anywhere on the application other than the radio buttons or the slider.
